

# APPLE, SBCEO & CTAP PRESENT

Best Practices for Deploying and Managing Apple's Mobile Platform (iOS Devices)

Come join us on Tuesday, July 12

*in the SBCEO Auditorium*

*Two Sessions Available*

**9 a.m. - noon OR 1- 4 p.m.**

*In this seminar the attendee will learn to use, deploy, and manage Apple's Mobile Platform of iPods or iPads with iOS for your classroom or school site. Demonstrations of best practices in setting up environments for preparing and synchronizing Apple's mobile devices using a Macintosh with iTunes will be given. Strategies for handling many devices in carts, one-to-one implementations and shared environments where multiple students use the same device will be discussed. MDM (mobile device management) solutions will be briefly talked about with a list of third party companies listed. Use of the latest version of the iPhone Configuration Utility (iPCU) will be demonstrated for use in controlling of mobile device settings and mass changes to devices. Accessibility options using Apple's mobile devices will be shown. There will also be discussion of Apple's exclusive to education "Volume Purchase Program" (VPP) and how this program can be managed in a district environment to streamline app purchases as well as receive discounts.*

Bring your iPad/iPod if you have one

Presenters: Dale Fleming and Dave Douglas from Apple
