Professional Development Events

Understanding Brain States & Behavior

Participants will be introduced to the applied science of brain states and behavior regulation. The goal of this mini-PD is for staff to begin to understand the underpinnings for all human escalation cycles and how “behavior” is not unique to students with behavioral challenges. Staff will be guided through current research on the topic and could participate in activities that help integrate the content that is presented.

Supporting Students with Behavioral Needs in School Settings

This introductory mini-PD offers participants a brief overview of traditional vs brain-based perspectives on student dysregulation and challenges staff to reflect on their own narratives about student problem behavior. Additionally, a variety of proactive evidence-based practices for mitigating challenging behavior will be presented and participants will have an opportunity to apply strategies to case-studies in a small group activity.

How To “Coach” Students

This mini-PD is focused on practical, hands-on, evidence-based strategies for giving students feedback, offering support, and “correcting” pre-escalation behavior. Staff will reflect on how they like to be “coached” and then apply the scientific information shared to case examples they self-generate. The goal is for participants to walk away with a fresh perspective on how “coaching” vs correcting and/or inadvertent shaming of students could broadly help all the students they serve.

Default vs GROW: How our “Lens” Impacts the Way We Support Students

This mini-PD will start with a brief review of brain states and how behavior escalates in all humans, followed by an outline of the differences between “default” vs “GROW” lenses. The objective is for participants to understand what influences our perspectives and responses to student behavior and how students, especially students with challenging behavior, deserve scientific coaching practices rooted in dignity not punishment procedures.

Data Collection in Special Education

Fall 2023

In this training, participants will have the opportunity to learn about the most common types of data systems used in special education programs (e.g., frequency, duration) and how different IEP goals require different types of data collection. Particular attention will also be given to how to accurately collect ABC data and participants will have opportunities to practice this through case examples and group activities.

Understanding the Functions of Behavior

The focus of this training will be helping participants learn that behaviors are information and serve several different functions. Once functions are understood then skills can be developed that allow students to navigate through struggles in a more adaptive manner.

Fundamentals of Behavior

To help educational staff broaden their understanding of “behaviors” in students, this training will introduce them to the science of behavior, including the neuro-biological cycle of behavior that is true for all human beings. Additionally, information related to ACES, trauma, learning challenges, and chronic stress experiences will be presented to help participants examine their own narratives about behaviors in students.

De-Escalation Strategies: Guiding Principles and Next Steps

In this training, participants will have the opportunity to learn guiding principles for de-escalating students during behavioral/emotional responses and the importance of proactive strategies to mitigate escalation cycles.

SELPA 28: SBCSELPA Continuum of Mental Health Services

Late in 2020, an Ad-Hoc Committee was formed to revise the SBCSELPA Continuum of Mental Health. This training is to introduce the new Continuum, discuss its function/limitations, and to provide information on two added services to the Continuum: Social Work Services and Parent Counseling.

Consulting In Classroom Settings

The focus of this training will be on sharing strategies that facilitate collaborative and productive consulting in classroom settings. Specific steps and strategies educational specialists (e.g., BCBAs, MFTs, SLPs) can use to build rapport with team

members and establish mutually beneficial communication. In addition, strategies team members (e.g., teachers, paraprofessionals) can also use when collaborating with consultants will also be shared.

How To Provide Students with Corrective Feedback & Coaching

This training will focus on how team members (e.g., teachers, paraprofessionals, administrators) can give students feedback, both positive and corrective, in a constructive manner that optimizes communication.

SELPA 28A: SBCSELPA Wrap Supports Referral- recorded available on SBCSELPA YouTube Channel

The new Santa Barbara County SELPA Wrap Referral is here—and it's fillable! This short training will explain what Wrap supports are, how the referral process works, and how to document on an IEP. This training will be recorded and available for viewing at your convenience.

Brain-Based Behavioral Perspectives and Support Strategies

Drawing from foundations of interpersonal neurobiology, applied developmental attachment, and specific communication skills; participants will gain a functional understanding of how educators can best support students who present with relational and behavioral challenges. Staff will then be able to calibrate their approach to meet the needs of the student as they exist in the moment, supporting emotional resilience and academic success.

relationships with their students to support social-emotional development, academic access, and a culture of emotional inclusion.

Self-Care for the Educator

Self-Care for Educators provides a time to reflect on your own mental health so that you can more effectively support students. In the course of our work, we are confronted with the challenging aspects of life. As Educators, we are asked to “do more with less,” and work within uncertain funding and restrictive policy contexts. The circumstances the youth of today bring to school often impacts not only our teaching but takes a toll on the school. Practicing self-care is an important activity that will help you cognitively, physically, and emotionally “bounce back” each day over the long term.

Parent Support

Mental Health for Families: Supporting the Mental Health of Families and Caregivers during Distance Learning

A presentation of self-care practices during times of acute and chronic stress for parents/guardians/caregivers. In addition, a resource for parents/guardians/caregivers to help support the children in their home during this time of distance learning.

SIRAS

Introduction to SIRAS for new employees

New Staff will learn how to maneuver through SIRAS and how to create an IEP in SIRAS.

When is it appropriate to refer to SBCSELPA Wrap?

When students...

Mental health needs in the home environment are significantly impacting the student's ability to access their education

Mental health and/or behaviors in the school setting are so significant that they're at risk of moving to a more restrictive placement (i.e. GROW classroom or NPS/RTC)

Are not coming to school (school refusal or poor attendance due to mental health needs)

Considerations *prior* to a Wrap Referral:

- Have we explored and/or attempted lesser restrictive services and supports? If not, why?
 - Parent counseling?
 - Increasing individual counseling minutes?
 - Group counseling?
 - Social work services?
- Have we connected and collaborated with outside support agencies? (i.e community-based agencies, physicians, private therapist, etc.)
- Is the team consulting with a Behaviorist and/or BCBA?
 - Has the team considered adding and implementing a BIP (if not already in place)?
- If the student is not attending, has the team considered and/or attempted outreach to the family? (i.e. Home visit, Outreach team, Family Liaison, etc.)

Referral for SBCSELPA Wrap Supports

Service Description

SBCSELPA Wrap operates as a collection of IEP Mental Health Related services, providing intensive individual counseling, parent counseling, and social work-type supports in various settings, including school, home, and in the community; intended to prevent further restrictive educational placements. Each approved Referral will be assigned a Wrap Facilitator and a Youth Support Specialist to offer support to the student and family for a minimum of 180 minutes per week, for a period of 6-8 weeks; during/after which the IEP team will meet to review progress towards social-emotional/behavior goals, and status of accessing their education in LRE.

- SBCSELPA Mental Health Specialist is available to consult throughout the consideration and development of SELPA28A.
- All SBCSELPA Wrap Support Referrals must be sent to the SBCSELPA Mental Health Specialist and complete this SELPA28A Referral Process before adding to a student's IEP. *Wrap supports added to an IEP before/without an approved SELPA28A will not be eligible for SBCSELPA-funding/staffing.*
- IEP teams are encouraged to consider the appropriateness/need of discussing the intent to submit a SELPA 28A in an IEP meeting/setting (with the family) before initiating this SELPA28A Referral Process—doing so will not impact eligibility for SBCSELPA-funding/staffing.

Student Population

As a Mental Health support offered through *Supplementary Aids, Services, & Transportation*, the SBCSELPA Wrap team is staffed to primarily support students who are eligible for Specialized Education under the qualifier of Emotional Disturbance, and who are at-risk of requiring more restrictive educational placements (SOC, GROW, NPS).

- Additional consideration and consultation will be required for SELPA28A Referrals made on behalf of students who are eligible for Specialized Education under the qualifiers other than Emotional Disturbance (e.g., Autism, OHI, SLD, SLI, etc.)

Referral Directions

The following process is to be completed by the referring LEA/School District, initiating the IEP team's SELPA28A Referral for SBCSELPA Wrap Supports. Please complete the following steps in sequence and with accompanying documentation, as listed below, to the SBCSELPA Mental Health Specialist:

- ☐ Step 1: LEA SPED IEP team member (School Psychologist preferred) completes Form SELPA28A- Referral for SBCSELPA Supports.
- o **Required Documentation:**
 - Cover Letter summarizing reasons for referral, status of student cognitive and social-emotional functioning, determination of need for increased mental health supports/shift from LRE, description of current/historical mental health & counseling supports, history of student's access of supports, effectiveness of current and historical interventions, and description of attendance concerns/challenges
 - Copy of current IEP and Amendments
 - Most current Psychoeducational Assessments, including social-emotional assessment within three months of SELPA28A Referral
 - If unable to conduct assessment, specify reasoning/circumstances in Cover Letter, and how the IEP team is determining SBCSELPA Wrap as appropriate for the student's current needs
 - Current/historical Functional Behavior Assessment and Behavior Intervention Plan (if developed)
 - Grades (transcripts/report cards)
 - Discipline reports
 - Attendance records
 - Any collateral documentation (reporting by parents, medical, psychological, Social Worker, or other community service providers)
 - o SBCSELPA Mental Health Specialist is available to consult throughout consideration and development of SELPA28A.
- ☐ Step 2: LEA SPED Administrator/Designee (SPED Director, Program Coordinator preferred) reviews SELPA28A Referral form and documentation for accuracy and completeness. SPED Administrator/Designee sends SELPA28A Referral to SBCSELPA Mental Health Specialist.
- o Within 5 school days of receiving the SELPA28A, the SBCSELPA Mental Health Specialist will confirm completeness and appropriateness of SELPA28A.
- ☐ Step 3: If approved by SBCSELPA Mental Health Specialist, the LEA schedules an IEP team meeting (including parents, and potentially student) to discuss determined need for increased Mental Health supports, and to describe/offer SBCSELPA Wrap.
- o If the IEP team agrees to the addition of SBCSELPA Wrap Supports, the LEA then adds 6-8 weeks of SBCSELPA Wrap to the student's IEP *Supplementary Aids, Services, & Transportation*.
- ☐ Step 4: LEA will coordinate with SBCSELPA Mental Health Specialist and assigned Wrap team to schedule follow-up IEP meetings and/or Amendments every 4-6 weeks to review the access of SBCSELPA Wrap minutes, concerns/progress of student's educational access, and the IEP team's ongoing determination of the student's needs to either extend for 6-8 weeks of SBCSELPA Wrap supports or allow them to lapse.
- o SBCSELPA Wrap team sends SBCSELPA Wrap Weekly Log to identified IEP team members to reflect minutes offered/accessed

Reminders & Considerations

Keep in mind:

Please contact Wrap Coordinator *prior* to any formal IEP offer of Wrap services. LEA's that add Wrap/Social-work Services to IEP's without completing the SELPA 28A Referral Process will be responsible for providing those supports locally/or through an NPA

Students receiving SBCSELPA Wrap through an NPS-Transition are able to extend these accommodations beyond the typical 30-day placement review timeframe without completing 28A

Students being re-referred for SBCSELPA Wrap supports in a new school year will require a new SELPA 28A

When do we recommend fading out?

What we consider:

Accessing Education

Are they accessing their current offer of FAPE?
Has attendance increased or become more consistent?

Safety Considerations

Is safety plan in place and is it effective? Have risk behaviors decreased and are they being successfully managed by school & community-based teams?

Established Connections

Have community-based connections been established?
Has the student connected with their school-based team?
