Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of the Santa Barbara County Special Education Local Plan Area (the SELPA), as of and for the fiscal year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the SELPA's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the SELPA, as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of SELPA and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, which raise substantial doubt about the SELPA's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial

likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the SELPA's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, which raise substantial doubt about the SELPA's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the SELPA's proportionate share of the net pension liability, and the schedule of SELPA contributions, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the SELPA's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards

and other supplementary information listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2023, on our consideration of the SELPA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the SELPA's internal control over financial reporting and compliance.

Santa Barbara County Special Education Local Plan Area A Joint Powers Agency

This section of Santa Barbara County Special Education Local Plan Area's (the SELPA) annual financial report presents our discussion and analysis of the SELPA's financial performance during the fiscal year that ended on June 30, 2023, with comparative information for the year ended June 30, 2022. Please read it in conjunction with the SELPA's financial statements, which immediately follow this section.

ORGANIZATIONAL STRUCTURE OF SELPA

Governance and Governance Structure

The SELPA is a group of 20 school districts, four charter schools, and the County Education Office that have joined together to provide special education programs and services.

The SELPA is organized as a Joint Powers Agency, which is technically an independent governmental agency. The SELPA is governed by the SELPA Joint Powers Agency Board, which is comprised of eight voting members. The Board is comprised of the County Superintendent of Schools and superintendents of districts in Santa Barbara County selected as follows: two members from non-direct service districts in south Santa Barbara County, two members from non-direct service districts in north Santa Barbara County, one member from direct service districts in Santa Barbara County, one member from non-direct service district, Santa Ynez Valley Special Education Consortium in central Santa Barbara County and one member from a 9-12 grade high school district. The County Superintendent of Schools serves continuously as an eighth member of the Board.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Statements

The financial statements presented herein include all of the activities of the Santa Barbara County Special Education Local Plan Area using the integrated approach as prescribed by Governmental Accounting Standards Board (GASB) Statement No. 34.

The *Government-Wide Financial Statements* present the financial picture of the SELPA from the economic resources measurement focus using the accrual basis of accounting. They present governmental activities. These statements include all assets of the SELPA (including capital and right-to-use leased assets), deferred outflows of resources, as well as all liabilities (including long-term liabilities), and deferred inflows of resources. Additionally, certain eliminations have occurred as prescribed by the statement in regards to interfund activity, payables, and receivables.

Management's Discussion and Analysis
June 30, 2023

Governmental-Wide Financial Statements are prepared using the economic resources measurement focus and the accrual basis of accounting.

The *Fund Financial Statements* include statements for the following category of activity:

The *Governmental Funds* are prepared using the current financial resources measurement focus and the modified accrual basis of accounting.

Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach.

The primary unit of the government is the Santa Barbara County Special Education Local Plan Area.

REPORTING THE SELPA AS A WHOLE

The Statement of Net Position and the Statement of Activities

The *Statement of Net Position* and the *Statement of Activities* report information about the SELPA as a whole and about its activities. These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the SELPA using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report on the SELPA's net position and changes in them. Net position is the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources, which is one way to measure the SELPA's financial health, or financial position. Over time, increases or decreases in the SELPA's net position will serve as a useful indicator of whether the financial position of the SELPA is improving or deteriorating. Other factors to consider are changes in the SELPA's funding situation and the condition of the SELPA's facilities.

The relationship between revenues and expenses is the SELPA's *operating results*. Since the governing board's responsibility is to provide services to our member districts and their students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the SELPA. The quality of the support and programs provided will likely be an important component in this evaluation.

In the *Statement of Net Position* and the *Statement of Activities*, we present the SELPA activities as follows:

Governmental Activities - All of the SELPA's services are reported in this category. This includes providing special education programs and services.

REPORTING THE SELPA'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the General Fund and the Special Education Pass-Through Fund - not the SELPA as a whole. Some funds are required to be established by State law and by bond covenants. However, management may establish other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the U.S. Department of Education.

Governmental Funds - All of the SELPA's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the SELPA's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the SELPA's programs. The differences of results in the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following the governmental fund financial statements.

FINANCIAL HIGHLIGHTS

Executive Summary

The SELPA Board and management establishes allocations for all ending fund balances and carryover monies so that they may directly benefit the districts and students we serve in Santa Barbara County. Accounts established for such things as legal fees, non-public school placements, professional development and trainings that were not fully expended are brought before the SELPA JPA Board for reallocation in the 2023-2024 school year. The JPA Board allocated \$1,697,077 of Ending Fund Balance to continue to provide Mental Health Services and shared cost pools for mental health non-public schools through the 2023-2024 school year, as SELPA will no longer receive Mental Health funding beginning 2023-2024.

THE SELPA AS A WHOLE

Net Position

The SELPA's net position was \$3,519,470, for the fiscal year ended June 30, 2023. Of this amount, \$59,594 was unrestricted (deficit) net position. Restricted net position is reported separately to show legal constraints from debt covenants, grantors, constitutional provisions, and enabling legislation that limits the governing board's ability to use that net position for day-to-day operations. Our analysis below, in summary form, focuses on the net position (Table 1) and change in net position (Table 2) of the SELPA's governmental activities.

Table 1

	Governmental Activities

Unrestricted (deficit)	59,594	(864,405)
Total net position	\$ 3,519,470	\$ 3,575,903

The \$59,594 in unrestricted (deficit) net position of all governmental activities represents the accumulated results of all past years' operations. Unrestricted (deficit) net position increased by \$923,999, or 106.9% as compared to the previous year's balance of \$(864,405). The significant increase in unrestricted net position is due to a shift in expenses from unrestricted to restricted during the 2022-2023 fiscal year. The overall decrease in Net Position was \$(56,433) or 1.58%.

Changes in Net Position

The results of this year's operations for the SELPA as a whole are reported in the *Statement of Activities* on page 14. Table 2 takes the information from the Statement, rounds off the numbers, and rearranges them slightly so you can see our total revenues for the year.

Governmental Activities

As reported in the *Statement of Activities* on page 14, the cost of all of our governmental activities this year was \$60,487,189. The cost of these activities was paid by other governments and organizations who subsidized certain programs with grants and contributions of \$60,364,164. We paid for the remaining public benefit portion of our governmental activities with other revenues, like interest and general entitlements.

In Table 3, we have presented the cost and net cost of each of the SELPA's largest functions – instruction-related activities, administration, plant services, interest on long-term liabilities and other outgo. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

Instruction-related costs include the SELPA staff, Mental Health Specialists, WRAP Coordinator, and BCBAs, and WRAP team services (contracted with Goleta Union Elementary School District). A 6.5% increase was applied to all Salaries, resulting in a net increase in salary costs. There were more Nonpublic school placements. Other-outgo expenses are primarily due to Fund 10 passthrough account to transfer revenues to districts in accordance with the SBCSELPA Local plan. The decrease 2022-2023 decrease in other outgo as compared to 2021-22 is due to 1x passthrough COVID funding in 2021-22 that did not continue in 2022-2023. Historical and ongoing other-outgo expenses from Fund 01 include payments of deferred maintenance of regional program classrooms, Low Incidence and allocation of unused mental health costs and other special education costs back to the districts.

General Fund Budgetary Highlights

Over the course of the year, the SELPA revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. The final amendment to the budget was adopted on March 6, 2023. (A schedule showing the SELPA's original and final budget amounts compared with amounts actually paid and received is provided in our annual report on page 38.

Revenue revisions made to the 2022-2023 Budget were due primarily to adjustment from anticipating no mental health funding in 2022-23 to receiving Mental Health Funding in 2023, including adding back in a Mental Health Specialist position, restoring complete NPS Cost Pool. There was also an additional 5.5% Salary increase negotiated after Adopted budget. Additional carryover in unspent 1x passthrough funds for Federal American Rescue Plan Act. Also changes associations with the revenue increases and for and the allocation of fiscal year 2021-2022 ending fund balance to create the following accounts:

District Legal Allocation,
SELPA-Wide Professional Development and CPI Training
MAA and SIPE carryover
Low Incidence Equipment carryover
Transfer of allocated ending fund balances to districts
Alternative Dispute Resolution Carryover (1x grant)

Aggregate Net Pension Liability (NPL)

At year-end, the SELPA had an aggregate net pension liability of \$1,058,949, versus \$559,394 last year, an increase of \$499,555 or 89.3%. We provide more detailed information regarding pension liability in Note 9 of the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In considering the SELPA Budget for the 2023-2024 fiscal year, the Board and management used the following criteria: The key assumptions in our revenue forecast are:

Cost of Living Adjustment (COLA) of 8.13% was applied to AB602 Revenue in the 2023-2024 Adopted Budget. Federal income will be tied directly to grant awards that are received for various programs, i.e., staff development and low incidence and is projected to remain flat. **There** was no COLA applied to Salaries. Step-and-Column increases were applied. Benefits were estimated based on current and historical data. Reductions in expenses for one-time funding.

CONTACTING THE SELPA'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the SELPA's finances and to show the SELPA's accountability for the money it receives. Amounts Reported for Governmental Activities in the Statement of
Activities are Different Because

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures; however, for governmental activities, those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation and amortization expenses in the Statement of Activities. This is the amount by which depreciation and amortization expense exceeds capital outlay in the period.		(52,367)
---	--	----------

In the Statement of Activities, certain operating expenses, such as compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these item are measured by the amount of financial resources used (essentially, the amounts actually paid). This amount is the difference between vacation earned and used		(2,936)

In the governmental funds, pension costs are based on employer contributions made to pension plans during the year. SANTA BARBARA COUNTY SPECIAL EDUCATION LOCAL PLAN AREA

NOTES TO BASIC FINANCIAL STATEMENTS

JUNE 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Santa Barbara County Special Education Local Plan Area (SELPA) was organized in 1983 as a Joint Powers Agreement (JPA). The following Santa Barbara County LEAs are members in 2022-2023:

Adelante Charter School	Los Olivos School District
Ballard School District	Manzanita Public Charter School
Blockman Union School District	Montecito Union School District
Buellton Union School District	Orcutt Union School District
Carpinteria Unified School District	Santa Barbara Charter School
Cold Spring School District	Santa Barbara County Education Office
College School District	Santa Barbara Unified School District
Cuyama Joint Unified School District	Santa Maria Joint Union High School District
Family Partnership Charter School	Santa Maria-Bonita School District
Goleta Union School District	Santa Ynez Valley Union High School District
Guadalupe Union School District	Solvang School District
Hope School District	Vista Del Mar Union School District
Lompoc Unified School District	

The purpose of the SELPA is to maintain programs for the education of individuals with special needs in the most cost-effective manner. This plan is carried out through the coordination of special education services within the members' geographic boundary.

The SELPA is governed by the JPA Board, which consists of representatives from members' administration. The SELPA maintains an administrative paid staff for managerial control and a classified staff to provide services to member SELPAs. The certificated staff are employees of a member organization or employees of the SELPA, depending on their duties.

B. Basis of Presentation

Government-wide Financial Statements:

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the SELPA.

The government-wide statements are prepared using the economic resources measurement focus. Government-wide statements differ from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation, with brief explanations to better identify the relationship between the government-wide statements and the statements for the governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the SELPA's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. The SELPA does not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipients of goods or services offered by a program, as well as grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the SELPA, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the SELPA.

Fund Financial Statements:

Fund financial statements report detailed information about the SELPA. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major governmental fund is presented in a separate column, and all nonmajor funds are aggregated into one column.

The accounting and financial treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The Statement of Revenues, Expenditures, and

B. Basis of Presentation (continued)

Changes in Fund Balances for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

C. Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting.

Revenue – exchange and non-exchange transactions:

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. “Available” means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the SELPA, “available” means collectible within the current period or within one year after fiscal year end.

Non-exchange transactions, in which the SELPA receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are to be used or the fiscal year when use is first permitted; matching requirements, in which the SELPA must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the SELPA on a reimbursement basis. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned revenue:

Unearned revenue arises when assets are received before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements are met are recorded as unearned revenue. On the governmental fund financial statements, receivables associated with non-exchange transactions that will not be collected within the availability period have also been recorded as unearned revenue.

Pensions:

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the SELPA's California Public Employees' Retirement System (CalPERS) and California State Teachers' Retirement Plan (CalSTRS) (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS and CalSTRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported as fair value.

Expenses/expenditures:

On the accrual basis of accounting, expenses are recognized at the time a liability is incurred. On the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, as under the accrual basis of accounting. However, under the modified accrual basis of accounting, debt service expenditures, as well as expenditure related to compensated absences and claims and judgments are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

When both restricted and unrestricted resources are available for use, it is the SELPA's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Fund Accounting

The accounts of the SELPA are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. The SELPA's resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and

D. Fund Accounting (continued)

the means by which spending activities are controlled. The SELPA's accounts are organized into major and nonmajor funds as follows:

Major Governmental Funds:

The General Fund is the general operating fund of the SELPA. It is used to account for all financial resources except those required to be accounted for in another fund.

The Special Education Pass-Through Fund is used by the Administrative Unit of a multi-district Special Education Local Plan Area (SELPA) to account for Special Education revenue passed through to other member districts.

E. Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds. By State law, the SELPA's governing board must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The SELPA's governing board satisfied these requirements.

These budgets are revised by the SELPA's governing board during the fiscal year to give consideration to unanticipated income and expenditures.

Formal budgetary integration was employed as a management control device during the fiscal year for all budgeted funds. The SELPA employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

F. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated at June 30.

G. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, as prescribed by the GASB and the American Institute of Certified Public Accountants, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

H. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Equity

1. Deposits and Investments

Cash balances held in banks and in revolving funds are insured up to \$250,000 by the Federal Depository Insurance Corporation. All cash held by the financial institutions is fully insured or collateralized.

In accordance with Education Code Section 41001, the SELPA maintains substantially all of its cash in the Santa Barbara County Treasury. The County pools these funds with those of other SELPA in the County and invests the cash. These pooled funds are carried at fair value. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

The County is authorized to deposit cash and invest excess funds by California Government Code Section 53648 et. seq.. The funds maintained by the County are either secured by the Federal Depository Insurance Corporation or are collateralized.

Information regarding the amount of dollars invested in derivatives with the Santa Barbara County Treasury was not available.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Equity (continued)

2. Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as interfund receivables/payables.

3. Prepaid Items

The SELPA has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The SELPA has chosen to report the expenditure in the period benefited.

4. Capital Assets

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the SELPA. The SELPA maintains a capitalization threshold of \$5,000. The SELPA does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide statement of net position. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at acquisition value on the date donated, if applicable.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 20 to 50 years; improvements/infrastructure, 5 to 50 years; equipment, 2 to 15 years.

The SELPA records impairments of capital assets when it becomes probable that the carrying value of the assets will not be fully recovered over their estimated useful life. Impairments are recorded to reduce the carrying value of the assets to their net realizable value based on facts and circumstances in existence at the time of the determination. No impairments were recorded during the year ended June 30, 2023.

The SELPA records the value of intangible right-to-use assets based on the underlying leased asset in accordance with GASB Statement No. 87, *Leases*. The right-to-use intangible asset is amortized each year for the term of the contract.

5. Deferred Outflows and Inflows of Resources

Pursuant to GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, the SELPA recognizes deferred outflows and inflows of resources.

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. A deferred outflow of resources is defined as a consumption of net position by the government that is applicable to a future reporting period. The SELPA has two items which qualify for reporting in this category; refer to Notes 5 and Note 9 for a detailed listing of the deferred outflows of resources the SELPA has recognized. In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. A deferred inflow of resources is defined as an acquisition of net position by the SELPA that is applicable to a future reporting period. The SELPA has two items which qualify for reporting in this category; refer to Note 5 and Note 9 for a detailed listing of the deferred inflows of resources the SELPA has recognized.

6. Compensated Absences

All vacation pay plus related payroll taxes are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

NOTES TO BASIC FINANCIAL STATEMENTS

7. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position.

8. Fund Balances

Fund balances of the governmental funds are classified as follows:

Non-spendable Fund Balance – represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance – represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance – represents amounts that can only be used for a specific purpose because of a formal action by the SELPA's governing board. Committed amounts cannot be used for any other purpose unless the governing board removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the governing board. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance – represents amounts which the SELPA intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the governing board or by an official or body to which the governing board delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service, or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund convey that the intended use of those amounts is for a specific purpose that is narrower than the general purpose of the SELPA.

Unassigned Fund Balance – represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the SELPA considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the SELPA considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

9. Minimum Fund Balance Policy

The SELPA is committed to maintaining a prudent level of financial resources to protect against the need to reduce service levels because of temporary revenue shortfalls or unpredicted expenditures. The SELPA's Minimum Fund Balance Policy requires a Reserve for Economic Uncertainties, consisting of unassigned amounts, equal to no less than \$643,478 within the General Fund.

10. Leases

The SELPA recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The SELPA measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the lease term.

I. Future Accounting Pronouncements

GASB Statements listed below will be implemented in future financial statements:

Statement No. 99	"Omnibus 2022"	The provisions of this statement are effective in April 2022 except for the provisions related to leases, PPPs, SBITAs, financial guarantees and derivative instruments. The provisions related to leases, PPPs, and SBITAs are effective for fiscal years beginning after June 15, 2022. The provisions related to financial guarantees and derivative instruments are effective for fiscal years beginning after June 15, 2023.
Statement No. 100	"Accounting Changes and Error Corrections - an amendment of GASB Statement No. 62"	The provisions of this statement are effective for fiscal years beginning after June 15, 2023.
Statement No. 101	"Compensated Absences"	The provisions of this statement are effective for fiscal years beginning after December 15, 2023.

NOTE 2 - CASH AND INVESTMENTS

The SELPA's cash and investments at June 30, 2023, consisted of the following:

Cash and investments with the County Treasurer	\$ 4,046,038
Total cash in investments	<u>\$ 4,046,038</u>

Cash and investments are presented on the accompanying basic financial statements, as follows:

Cash in county treasury, statement of net position	\$ 4,046,038
Total cash in investments	<u>\$ 4,046,038</u>

The SELPA categorizes its fair value measurements within the fair value hierarchy established by U.S. Generally Accepted Accounting Principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. These principles recognize a three-tiered fair value hierarchy. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The SELPA did not have investments that were measured under Level 1, Level 2, or Level 3.

Cash in County Treasury

In accordance with Education Code Section 41001, the SELPA maintains substantially all of its cash in the Santa Barbara County Treasury as part of the common investment pool (\$4,046,038 as of June 30, 2023). The fair value of this pool as of that date, as provided by the plan sponsor, was \$4,046,038. The SELPA is considered to be an involuntary participant in the external pool. Interest is deposited in the participating funds. The County is restricted by Government Code Section 53635, pursuant to Section 53601, to invest in time deposits, U.S. government securities, State registered warrants, notes or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements.

Investments Authorized by the SELPA's Investment Policy

The SELPA's investment policy only authorizes investment in the local government investment pool administered by the County of Santa Barbara. The SELPA's investment policy does not contain any specific provisions intended to limit the SELPA's exposure to interest rate risk, credit risk, and concentration of credit risk.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the SELPA manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments

and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the SELPA's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the SELPA's investments by maturity:

Investment Type	Carrying Amount	Remaining Maturity (in Months)			
		12 Months Or Less	13-24 Months	25-60 Months	More than 60 Months
Santa Barbara County Investment Pool	\$ 4,046,038	\$ 4,046,038	\$ -	\$ -	\$ -
Total	\$ 4,046,038	\$ 4,046,038	\$ -	\$ -	\$ -

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by the California Government Code and the SELPA's investment policy, and the actual rating as of fiscal year end for each investment type.

Investment Type	Carrying Amount	Minimum Legal Rating	Exempt From Disclosure	Rating as of Fiscal Year End

Concentration of Credit Risk

The investment policy of the SELPA contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. There are no investments in any one issuer that represent 5% or more of total SELPA investments.

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the SELPA's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure the SELPA's deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

None of the SELPA's deposits with financial institutions in excess of federal depository insurance limits were held in uncollateralized accounts.

The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the SELPA's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as Santa Barbara County Investment Pool).

Leases

The SELPA has entered into agreements to lease various facilities and equipment. The SELPA's liability on lease agreements is summarized below:

SELPA Office Lease

The SELPA entered an agreement to lease office space for 36 months, beginning June 1, 2021. The initial lease term is through May 31, 2024, and has two three-year renewal options that are deemed reasonably certain to be exercised. Under the terms of the lease, the SELPA pays a monthly base fee of \$4,132.50, increasing 3.00% annually beginning in July 2022. At June 30, 2023, the SELPA has recognized a right-to-use asset of \$405,359 and a lease liability of \$405,359 related to this agreement. During the fiscal year, the SELPA recorded \$45,461 in amortization expense and \$7,012 in interest expense for the right-to-use the office space. The SELPA used a discount rate of 2.00%, based on estimates for similar property financing rates in place at the initiation of the lease.

Copier Lease

The SELPA entered an agreement to lease a copier for 60 months, beginning June 30, 2021. Under the terms of the lease, the SELPA makes monthly payments of \$147.72, which amounts to total principal and interest costs of \$8,863. At June 30, 2023, the SELPA has recognized a right-to-use asset of \$8,144 and a lease liability of \$6,607 related to this agreement. During the fiscal year, the SELPA recorded \$1,129 in amortization expense and \$236 in interest expense for the right-to-use the copier. The SELPA used a discount rate of 3.5%, based on estimates for similar equipment financing rates in place at the initiation of the lease.

NOTE 9 - PENSION PLANS

California State Teachers' Retirement System (CalSTRS)

A. General Information about the Pension Plan

Plan Descriptions – All qualified California full-time and part-time public school teachers from pre-kindergarten through community college and certain other employees of the public school system are eligible to participate in the CalSTRS Pension Plans, multiple-employer, cost-sharing defined benefit plans administered by the California State Teacher's Retirement System (CalSTRS). Benefit provisions under the Plans are established by the Teachers' Retirement Law (California Education Code Section 22000 et seq), as enacted and amended by the California Legislature. The benefit terms of the plans may be amended through legislation CalSTRS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalSTRS' website.

Benefits Provided – The CALSTRS' Defined Benefit Program has two benefit formulas:

CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform services that could be creditable to CalSTRS.

CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform services that could be creditable to CalSTRS.

The Defined Benefit Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and or survivors/beneficiaries upon death of eligible members.

After earning five years of credited service, members become 100 percent vested in retirement benefits.

After five years of credited service, a member (prior to age 60 if under Coverage A, no age limit if under Coverage B, as defined in Education Code Sections 24001 and 24101, respectively) is eligible for disability benefits of up to 50.0 percent of final compensation plus 10.0 percent of final compensation for each eligible child, up to a maximum addition of 40.0 percent. The member must have a disability that will exceed a period of 12 or more months to qualify for benefit.

Any compensation for service in excess of one year in a school year due to overtime or working additional assignments is credited to the Defined Benefit Supplement Program so long as it is under the creditable compensation limit. Other compensation, such as allowances, bonuses, cash in-lieu of fringe benefits, limited-period compensation or compensation determined to have been paid to enhance a benefit, are not creditable to any CalSTRS benefit program.

The Plans' provisions and benefits in effect at June 30, 2023, are summarized as shown on the following page:

Contributions – Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in the Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

On-Behalf Payments – The SELPA was the recipient of on-behalf payments made by the State of California to CalSTRS for K-12 education. These payments consist of state general fund contributions to CalSTRS.

For the fiscal year ended June 30, 2023, the contributions recognized as part of pension expense were as follows:

Contribution – employer	\$ 72,070
Contribution – state	\$ 34,107

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2023, the SELPA reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the SELPA. The amount recognized by the SELPA as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the SELPA were as follows:

Organization's proportionate share of the net pension liability	\$ 424,549
State's proportionate share of the net pension liability associated with the Organization	256,261
Total	<u>\$ 680,810</u>

The SELPA's net pension liability is measured as the proportionate share of the net pension liability. The net pension liability is measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021 rolled forward to June 30, 2022 using standard update procedures. The SELPA's proportion of the net pension liability was based on a projection of the SELPA's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2022, the SELPA's proportion was .0006%, which was the same as its proportion measured as of June 30, 2021.

For the fiscal year ended June 30, 2023, the SELPA recognized pension expense of \$122,732. At June 30, 2023, the SELPA reported deferred outflows of resources and deferred inflows of resources related to pensions from the sources shown on the next page:

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. In January 31, 2020, the CalSTRS' retirement board changed the mortality assumptions based on the July 1, 2015 through June 30, 2018 Experience Analysis. The projection scale was set to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table, issued by the Society of Actuaries. NOTE 9 - PENSION PLANS

California State Teachers' Retirement System (CalSTRS) (continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance - PCA) as an input to the process. Based on the model from CalSTRS consulting actuary's (Milliman) investment practice, a best estimate range was determined by assuming the portfolio is re-balanced annually and that annual returns are normally distributed and independent from year to year to develop expected percentiles for the long-term distribution of annualized returns. The assumed asset allocation by PCA is based on board policy for target asset allocation in effect on January 31, 2020, the date the current experience study was approved by the board. Best estimates of 10-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term* Expected Real Rate of Return
Global Equity	42 %	4.80 %
Private Equity	13 %	6.30 %
Real Estate	15 %	3.60 %
Inflation Sensitive	6 %	3.30 %
Fixed Income	12 %	1.30 %
Cash/Liquidity	2 %	(0.40) %
Absolute Return	10 %	1.80 %
	100 %	

*10 year geometric average

Discount Rate – The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increases per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur mid-year. Based on those assumptions, the CalSTRS fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the SELPA's proportionate share of the net pension liability, calculated using the discount rate, as well as what the SELPA's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

1% Decrease	6.10%
Net Pension Liability	\$ 721,042
Current Discount Rate	7.10%
Net Pension Liability	\$ 424,549
1% Increase	8.10%
Net Pension Liability	\$ 178,371

Pension Plan Fiduciary Net Position - Detailed information about pension plan's fiduciary net position is available in the separately-issued CalSTRS' financial reports.

C. Payable to the Pension Plan

At June 30, 2023, the SELPA had no amount outstanding for contributions to the pension plan required for the fiscal year ended June 30, 2023.

California Public Employers' Retirement System (CalPERS)

A. General Information about the Pension Plan

Plan Description

All qualified permanent and probationary employees are eligible to participate in the SELPA's Miscellaneous Employee Pension Plan, cost-sharing multiple employer defined benefit plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and SELPA resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS' website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for nonduty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at June 30, 2022 (the Measurement Date), are summarized as follows:

	Prior to January 1, 2013	On or after January 1, 2013
Hire Date		
Benefit formula	2.0% @ 55	2.0% @ 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	55	62
Monthly benefits, as a % of eligible compensation	1.1%-2.5%	1.0%-2.5%
Required employee contribution rates	7.00%	7.00%
Required employer contribution rates	8.63%	7.47%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the fiscal year, with an additional amount to finance any unfunded accrued liability. The SELPA is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Contributions to the pension plan from the SELPA were \$113,483 for the fiscal year ended June 30, 2023.

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2023, the SELPA reported a liability of \$634,400 for its proportionate share of the net pension liability. The net pension liability is measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021 rolled forward to June 30, 2022 using standard update procedures. The SELPA's proportion of the net pension liability was based on a projection of the SELPA's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2022, the SELPA's proportion was .01356%, which was a decrease from the proportion of .00008% at June 30, 2021.

NOTE 9 - PENSION PLANS (continued)**California Public Employers' Retirement System (CalPERS) (continued)****B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)**

For the fiscal year ended June 30, 2023, the SELPA recognized pension expense of \$39,134. Pension expense represents the change in the net pension liability during the measurement period, adjusted for actual contributions and the deferred recognition of changes in investment gain/loss, actuarial gain/loss, actuarial assumptions or method, and plan benefits. At June 30, 2023, the SELPA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 12,740	\$ 8,533
Change in assumptions	65,007	
Net difference between projected and actual earning on pension plan investments	116,205	
Changes in proportion and differences between District contributions and proportionate share of contributions	29,024	52,908
District contributions subsequent to the measurement date	113,483	
Total	<u>\$ 336,459</u>	<u>\$ 61,441</u>

Deferred outflows of resources and deferred inflows of resources above represent the unamortized portion of changes to net pension liability to be recognized in future periods in a systematic and rational manner.

\$113,483 reported as deferred outflows of resources related to pensions resulting from SELPA contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2024.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in the pension expense as follows:

For the measurement date of June 30, 2022, the discount rate was lowered from 7.15% to 6.90% and the inflation rate was decreased from 2.50% to 2.30%.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the next 20 years using a building-block approach. The expected rate of return was then adjusted to account for assumed administrative expenses of 10 Basis points. The expected real rates of return by asset class are as follows:

Asset Class	Strategic Allocation	Real Return Years 1-10 ^{1,2}
Global Equity - cap weighted	30.0%	4.45%
Global Equity non-cap-weighted	12.0%	3.84%

Discount Rate

The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Subsequent Events

On July 12, 2021, CalPERS reported a preliminary 21.3% net return on investments for fiscal year 2020-21. Based on the thresholds specified in CalPERS' Funding Risk Mitigation policy, the excess return of 14.3% prescribes a reduction in investment volatility that corresponds to a reduction in the discount rate used for funding purposes of 0.20%, from 7.00% to 6.80%. Since CalPERS was in the final stages of the four-year Asset Liability Management (ALM) cycle, the board elected to defer any changes to the asset allocation until the ALM process concluded, and the board could make its final decision on the asset allocation in November 2021.

On November 17, 2021, the board adopted a new strategic asset allocation. The new asset allocation along with the new capital market assumptions, economic assumptions and administrative expense assumption support a discount rate of 6.90% (net of investment expense but without a reduction for administrative expense) for financial reporting purposes. This includes a reduction in the price inflation assumption from 2.50% to 2.30% as recommended in the November 2021 CalPERS' Experience Study and Review of Actuarial Assumptions. This study also recommended modifications to retirement rates, termination rates, mortality rates and rates of salary increases that were adopted by the board. These new assumptions are reflected in the GASB Statement No. 68 accounting valuation reports for the June 30, 2022, measurement date.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the SELPA's proportionate share of the net pension liability, calculated using the discount rate, as well as what the SELPA's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

1% Decrease	5.90%
Net Pension Liability	\$ 989,959
Current Discount Rate	6.90%
Net Pension Liability	\$ 634,400
1% Increase	7.90%
Net Pension Liability	\$ 341,863

Pension Plan Fiduciary Net Position - Detailed information about pension plan's fiduciary net position is available in the separately issued CalPERS' financial reports.

C. Payable to the Pension Plan

At June 30, 2023, the SELPA had no amount outstanding for contributions to the pension plan required for the fiscal year ended June 30, 2023.

NOTE 10 - COMMITMENTS AND CONTINGENCIES

State and Federal Allowances, Awards and Grants

The SELPA has received state and federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursements will not be material.

NOTES TO BASIC FINANCIAL STATEMENTS

JUNE 30, 2023

NOTE 10 - COMMITMENTS AND CONTINGENCIES (continued)

Litigation

According to the SELPA's staff and attorney, no contingent liabilities are outstanding, and no lawsuits are pending of any real financial consequence.

NOTE 11 - JOINT VENTURES (Joint Powers Agreements)

The SELPA is a member of the Self-Insured Schools of California II and III (SISC II and SISC III), and the Santa Barbara County Schools Self-Insurance Programs for Employees (SBSIPE) public entity risk pools joint powers authority (JPA). The County pays an annual premium to each entity for its property and liability, health benefits, and workers' compensation coverage, respectively. The relationships between the SELPA, the pool, and the JPA are such that they are not component units of the SELPA for financial reporting purposes.

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the County are included in these statements. Audited financial statements are available from the respective entities.

During the year ended June 30, 2023, the SELPA made payments of \$5,890 and \$16,620, to SISC II and SISC III, respectively, for services received.

This schedule discloses SELPA's financial trends by displaying past fiscal years' data along with current fiscal year budget information. These financial trend disclosures are used to evaluate SELPA's ability to continue as a going concern for a reasonable period of time.

The General Fund balance has decreased by \$620,009 over the past two fiscal years. The fiscal year 2023-24 budget projects a decrease of \$1,535,171 in fund balance. For this size, the State recommends available reserve of at least 5% of total general fund expenditures, transfers out, and other uses (total outgo).

The SELPA has incurred an operating surplus in two of the past three fiscal years and anticipates an operating deficit in the 2023-24 fiscal year. Total long-term liabilities has decreased by \$336,849 over the past two fiscal years.

Notes:

- 1) Available reserves consist of all unassigned fund balances and reserved for economic uncertainties contained within the General Fund.
- 2) Budget 2024 is included for analytical purposes only and has not been subjected to audit.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Governing Board
Santa Barbara County Special Education Local Plan Area
Goleta, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the governmental activities and each major fund of the Santa Barbara County Special Education Local Plan Area (the SELPA) as of and for the fiscal year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the SELPA's basic financial statements, and have issued our report thereon dated December 18, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the SELPA's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the SELPA's internal control. Accordingly, we do not express an opinion on the effectiveness of the SELPA's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether SELPA's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

To the Governing Board
Santa Barbara County Special Education Local Plan Area
Goleta, California

Report on Compliance for Each Major Federal Program

We have audited the Santa Barbara County Special Education Local Plan Area's (SELPA's) compliance with the types of compliance requirements described in the *Compliance Supplement* that could have a direct and material effect on each of SELPA's major federal programs for the fiscal year ended June 30, 2023. SELPA's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of SELPA's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the SELPA's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the SELPA's compliance.

Opinion on Each Major Federal Program

In our opinion, SELPA, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each major federal program for the fiscal year ended June 30, 2023.

Report on Internal Control

Management of SELPA is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered SELPA's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion of the effectiveness of SELPA's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material*

weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Section I – Financial Statement Findings

2022-001 Internal Control Weakness

Criteria: Management is responsible for the design, implementation and maintenance of internal controls to ensure that financial statements are free from material misstatement, whether due to error or fraud. Such internal controls should include a review of year-end closing entries to ensure the financial statements are fairly stated. The SELPA should ensure that all applicable accounting principles are adhered to when preparing the financial statements.

Condition: During the course of our engagement, we identified material misstatements of balances within the SELPA's 2021-2022 unaudited actuals financial report. Through review of supporting records, we note that the General Fund's Cash in County Treasury balance was overstated by \$151,819 and the receivable balance was understated by \$547,156. In addition, both the receivable and the accounts payable balances in the Special Education Pass-Through Fund were understated by \$2,882,420.

Questioned Costs: There were no questioned costs associated with the identified condition.

Context: The conditions were identified through review of available SELPA records related to the financial account balances in the General Fund and the Special Education Pass-Through Fund and inquiry with SELPA staff.

Effect: Due to the conditions identified, the General Fund's ending fund balance has been understated by \$395,337. The ending fund balance in the Special Education Pass-Through Fund is unchanged. However, revenues, outgo, receivable, and accounts payable were understated by \$2,882,240.

Cause: The SELPA's internal control and review system was not able to detect the misstatements to the financial statements

Recommendation: The SELPA business official agrees with the findings and is responsible for accruing all receivables and payables accurately, and year end closing journal entries. The need for a fair market value adjustment journal entry to adjust the General Fund's Cash in County Treasury and accrual for state apportionment has been added to the SELPA year-end close checklist so it will not be missed in the future. The SELPA Chief Business Official will work with Santa Barbara County Education Office School Business Advisory Services to ensure appropriate adjustments are made in the future.

Current Condition: Implemented

This representation letter is provided in connection with your audit(s) of the financial statements of Santa Barbara County Special Education Local Plan Area, which comprise the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows for the fiscal year then ended, and the disclosures (collectively, the "financial statements"), for the purpose of expressing opinions as to whether the financial statements are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Certain representations in this letter are described as being limited to matters that are material. Items are considered to be material, regardless of size, if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement. An omission or misstatement that is monetarily small in amount could be considered material as a result of qualitative factors.

We confirm, to the best of our knowledge and belief, as of December 15, 2023, the following representations made to you during your audit.

Financial Statements

- 1) We have fulfilled our responsibilities, as set out in the terms of the audit engagement letter dated February 28, 2023, including our responsibility for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP and for preparation of the supplementary information in accordance with the applicable criteria.
- 2) The financial statements referred to above are fairly presented in conformity with U.S. GAAP and include all properly classified funds and other financial information of the primary government and all component units required by generally accepted accounting principles to be included in the financial reporting entity.
- 3) We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
- 4) We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.

fax – (805) 967-1960 • selpa@sbcsepa.org

- 5) The methods, significant assumptions, and data used in making accounting estimates and their related disclosures are appropriate to achieve recognition, measurement, or disclosure that is reasonable in accordance with U.S. GAAP.
- 6) Related party relationships and transactions, including revenues, expenditures/expenses, loans, transfers, leasing arrangements, and guarantees, and amounts receivable from or payable to related parties have been appropriately accounted for and disclosed in accordance with U.S. GAAP.
- 7) Adjustments or disclosures have been made for all events, including instances of noncompliance, subsequent to the date of the financial statements that would require adjustment to or disclosure in the financial statements [or in the schedule of findings and questioned costs].
- 8) The effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the financial statements as a whole for each opinion unit. A list of the uncorrected misstatements is attached to the representation letter.
- 9) The effects of all known actual or possible litigation, claims, and assessments have been accounted for and disclosed in accordance with U.S. GAAP.
- 10) Guarantees, whether written or oral, under which the Santa Barbara County Special Education Local Plan Area is contingently liable, if any, have been properly recorded or disclosed.

Information Provided

- 11) We have provided you with:
 - a) Access to all information, of which we are aware, that is relevant to the preparation and fair presentation of the financial statements, such as records (including information obtained from outside of the general and subsidiary ledgers), documentation, and other matters [and all audit or relevant monitoring reports, if any, received from funding sources].
 - b) Additional information that you have requested from us for the purpose of the audit.
 - c) Unrestricted access to persons within the Santa Barbara County Special Education Local Plan Area from whom you determined it necessary to obtain audit evidence.
 - d) Minutes of the meetings of Santa Barbara County Special Education Local Plan Area or summaries of actions of recent meetings for which minutes have not yet been prepared.
- 12) All material transactions have been recorded in the accounting records and are reflected in the financial statements.
- 13) We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.
- 14) We have no knowledge of any fraud or suspected fraud that affects the Santa Barbara County Special Education Local Plan Area and involves—
 - Management,
 - Employees who have significant roles in internal control, or
 - Others where the fraud could have a material effect on the financial statements.

- 15) We have no knowledge of any allegations of fraud or suspected fraud affecting the Santa Barbara County Special Education Local Plan Area's financial statements communicated by employees, former employees, regulators, or others.
- 16) We have no knowledge of instances of noncompliance or suspected noncompliance with provisions of laws, regulations, contracts, or grant agreements, or waste or abuse, whose effects should be considered when preparing financial statements.
- 17) We have disclosed to you all known actual or possible litigation, claims, and assessments whose effects should be considered when preparing the financial statements.
- 18) We have disclosed to you the names of the Santa Barbara County Special Education Local Plan Area's related parties and all the related party relationships and transactions, including any side agreements.

Government-specific

- 19) There have been no communications from regulatory agencies concerning noncompliance with, or deficiencies in, financial reporting practices.
- 20) We have identified to you any previous audits, attestation engagements, and other studies related to the objectives of the audit and whether related recommendations have been implemented.
- 21) We have identified to you any investigations or legal proceedings that have been initiated with respect to the period under audit.
- 22) The Santa Barbara County Special Education Local Plan Area has no plans or intentions that may materially affect the carrying value or classification of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fund balance or net position.
- 23) We are responsible for compliance with the laws, regulations, and provisions of contracts and grant agreements applicable to us, including tax or debt limits and debt contracts, and legal and contractual provisions for reporting specific activities in separate funds.
- 24) We have appropriately disclosed all information for conduit debt obligations in accordance with [GASBS No. 91](#).
- 25) We have identified and disclosed to you all instances of identified and suspected fraud and noncompliance with provisions of laws, regulations, contracts, and grant agreements that we believe have a material effect on the financial statements.
- 26) There are no violations or possible violations of budget ordinances, laws and regulations (including those pertaining to adopting, approving, and amending budgets), provisions of contracts and grant agreements, tax or debt limits, and any related debt covenants whose effects should be considered for disclosure in the financial statements, or as a basis for recording a loss contingency, or for reporting on noncompliance.
- 27) As part of your audit, you assisted with preparation of the financial statements and disclosures. We acknowledge our responsibility as it relates to those nonaudit services, including that we assume all management responsibilities; oversee the services by designating an individual, preferably within senior management, who possesses suitable skill, knowledge, or experience; evaluate the adequacy and results of the services performed; and accept responsibility for the results of the services. We have reviewed, approved, and accepted responsibility for those financial statements and disclosures.
- 28) The Santa Barbara County Special Education Local Plan Area has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset been pledged as collateral.

- 29) The Santa Barbara County Special Education Local Plan Area has complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
- 30) The financial statements include all component units, appropriately present majority equity interests in legally separate organizations and joint ventures with an equity interest, and properly disclose all other joint ventures and other related organizations.
- 31) The financial statements include all fiduciary activities required by [GASBS No. 84](#), as amended.
- 32) The financial statements properly classify all funds and activities in accordance with [GASBS No. 34](#), as amended.
- 33) All funds that meet the quantitative criteria in [GASBS Nos. 34](#) and [37](#) for presentation as major are identified and presented as such and all other funds that are presented as major are particularly important to financial statement users.
- 34) Components of net position (net investment in capital assets; restricted; and unrestricted) and classifications of fund balance (nonspendable, restricted, committed, assigned, and unassigned) are properly classified and, if applicable, approved.
- 35) Investments, derivative instrument transactions, and land and other real estate held by endowments are properly valued.
- 36) Provisions for uncollectible receivables have been properly identified and recorded.
- 37) Expenses have been appropriately classified in or allocated to functions and programs in the statement of activities, and allocations have been made on a reasonable basis.
- 38) Revenues are appropriately classified in the statement of activities within program revenues, general revenues, contributions to term or permanent endowments, or contributions to permanent fund principal.
- 39) Interfund, internal, and intra-entity activity and balances have been appropriately classified and reported.
- 40) Deposits and investment securities and derivative instrument transactions are properly classified as to risk and are properly disclosed.
- 41) Capital assets, including infrastructure and intangible assets, are properly capitalized, reported, and, if applicable, depreciated or amortized.
- 42) We have appropriately disclosed the Santa Barbara County Special Education Local Plan Area's policy regarding whether to first apply restricted or unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available and have determined that net position is properly recognized under the policy.
- 43) We are following our established accounting policy regarding which resources (that is, restricted, committed, assigned, or unassigned) are considered to be spent first for expenditures for which more than one resource classification is available. That policy determines the fund balance classifications for financial reporting purposes.
- 44) We acknowledge our responsibility for the required supplementary information (RSI). The RSI is measured and presented within prescribed guidelines and the methods of measurement and

presentation have not changed from those used in the prior period. We have disclosed to you any significant assumptions and interpretations underlying the measurement and presentation of the RSI.

Ray, Alison, and Natalie,

After a great deal of intentional thought, discussion with Sam, and a reflection on where I currently am in life as a person and mother, I am writing to inform you that following the end of my maternity leave, effective 1/2/2024, I will not return to SELPA for work. I received this evaluation in October, tried to find childcare for months, and was anticipating returning in January still, however, as the weeks get closer, I am realizing the need to take care of myself and Sophia more. I want to be my best self in terms of providing therapy, being a mother, daughter, and an individual person and right now, I cannot do it all.

I am grateful for the time with SELPA and all I've learned. Thank you for the opportunity and if the time arises, I can return, I will contact Alison. I'll try to come clean my space and drop off keys sometime before the holidays.

Kindly,
Stephanie
